TO WHOM IT MAY CONCERN:

I, Nicolas van Zyl, in my capacity as Calibration Laboratory Manager for Atlas Copco Industrial Technique, hereby with pleasure make the following recommendation.

Mrs. Jenita Martins from Senhare Consulting Services recently conducted an ISO/IEC 17025-internal audit at our calibration laboratory. I found her to be very competent, knowledgeable and thorough. She was extremely professional and to the point in her approach. She also proved to be fair in her comments and findings and was very helpful in improving our system. I gladly recommend her service to whomever may require it.

Regards,

Nicolas Van Zyl  
Calibration Laboratory Manager
